PROFESSIONAL SUMMARY

Full Stack Software Developer with 3+ years of experience developing and deploying scalable web applications using Python, Django, Django REST Framework (DRF), Angular, and ReactJS. Experienced in RESTful API development, PostgreSQL/MySQL, Redis, third-party API integration, and AWS EC2, with hands-on knowledge of Linux, uWSGI, and Nginx. Skilled across the full software development lifecycle (SDLC), including backend and frontend development, system integration, deployment, and production support.

TECHNICAL SKILLS

Languages	: Python, SQL, TypeScript, JavaScript
Backend	: Django, Django REST Framework (DRF), RESTful APIs, API Development, Third-Party API Integration
Frontend	: Angular, ReactJS, HTML5, CSS3, Bootstrap, Tailwind CSS, Figma
Databases & Caching	: PostgreSQL, MySQL, Redis, Database Optimization
DevOps & Cloud	: AWS EC2, Linux, uWSGI, Nginx, Git, GitHub, GitLab, Deployment
Practices	: SDLC, Agile/Scrum, Sprint Planning, Code Reviews, RBAC, Production Support, Client Support
AI Development Tools	: ChatGPT, Claude Code, Gemini, Copilot, Cursor, Perplexity AI

PROFESSIONAL EXPERIENCE

Travidux Technologies Pvt. Ltd. – Project Delivery Engineer (PDE)

Jan 2026 – Present

- Spearheaded end-to-end delivery and deployment of 7 enterprise systems from requirements and resource planning through AWS EC2 production execution.
- Translated client requirements into backend designs, REST API specifications, development tasks, and delivery plans.
- Coordinated Agile/Scrum sprints, milestones, workload allocation, quality reviews, and technical issue resolution.
- Led production-readiness reviews covering API behavior, uWSGI/Nginx configuration, deployment environments, and data-security controls.

Travidux Technologies Pvt. Ltd. – Software Developer

Nov 2023 – Dec 2025

- Designed, developed, tested, and documented 75+ RESTful APIs using Python, Django, and Django REST Framework, securely processing 5,000+ monthly financial payloads.
- Integrated third-party APIs and external services including WhatsApp, SMS, email/Gmail, payment gateways, and e-commerce platforms to automate communication, payment, and business workflows.
- Deployed and maintained Django applications on AWS EC2 using Linux, uWSGI, and Nginx, optimizing application performance and reducing latency by 30%.

NTH Index Software Solutions LLP – Front-End Developer

Jan 2023 – Aug 2023

- Developed interactive client-facing interfaces using ReactJS, improving baseline page-load performance by 20%.
- Converted 40+ UI wireframes into reusable modular components and resolved 50+ UI rendering defects across mobile and desktop interfaces.

Right Soft Options – Software Developer Intern

Jan 2022 – Aug 2022

- Built 3 standalone Django and Flask-based evaluation sandboxes and coordinated feedback with 50 active beta testers.

KEY PROJECTS

- **ERP / POS Management System** — Inventory, sales, purchase and accounting management using Django, DRF, Angular and PostgreSQL.
- **ERP Mobile Application / CRM** — Mobile ERP/CRM workflows covering sales enquiries, approvals and customer management using Ionic, Django REST APIs and PostgreSQL.
- **Booking Portal System** — Customer booking platform with a dedicated back-office system for booking and administrative operations using Django, DRF, Angular and PostgreSQL.
- **HRMS System** — Employee management, payroll processing, policies, recruitment and job portal workflows using Django, DRF, Angular and PostgreSQL.
- **CMS Platform** — Developing a dynamic CMS for a government project with content management, role-based access control, and REST APIs using Python, Django, Angular, TypeScript and PostgreSQL.
- **Dynamic Websites** — Responsive business websites focused on business development, customer engagement and lead generation using ReactJS.

EDUCATION

BSc in Computer Science | University of Calicut

College of Applied Science, Chelakkara

2018 – 2021
